PROMINENT FEATURES

Preparing Professionals for Global Leadership 2

From the desk of director :

Founder
Sanjai Kumar Srivastava

Director

The world has gone through a rapid technological transformation in the last two decades. This can be observed in the field of software, hardware technologies sustainable technologies spanning the field of energy, industrial waste management and environment.

Information technology & management have opened up vast avenues in employment across the globe, It is fitting at this movement to harness the best talent available in the field of information and groom them for future. Keeping in view of this objective we decided to open an institute with repute with all the infrastructural facilities with special thrust on the state of the art technology. As has been proved beyond doubts, excellence has become the hallmark of our institution. Ever since its inception, the NST, our institute as it is named, has carved out a niche for itself, it has earned unparalleled applause and reputation surpassing other institute of its generation.

The unswerving dedication of one and all of the founding members has culminated into emergence of this institution into such a stature. We have a group of young and dynamic faculties who are capable of inspiring and motivating students to attain the highest realm of perfection.

We are in the field of education since 13th September 1987. We have grown consistently and multiplied many fold both in our reach and infrastructure. New Steps Technology (NST) is institute of professional courses with advance technologies that has taken an initiative to contribute to growth of the Country.

We at this institute not only ensure that the curriculum is covered in a professional manner but also provide exposure to the latest technologies by inviting guest speakers of eminence.

My dream is to make NST a herald in the field of technical education. More than a dream, it is a vision which I see finding fulfillment in the coming years.

I can say with profound confidence that this institute having already taken flying start is now ready to soar in the sky to show the strength of its wings to people of Gorakhpur.

I am sure that in times to come NST shall be recognised as one of the best institution producing best professionals in the field of Information technology and Management who shall be the main force in steering the nation to a better and more technologically advanced tomorrow.
